

Self Lighting Torch

Submittal Information »

Part No	42540
Document No.	SPEC42540
Date	2020-10-15
Revision	02

General Properties »

Material:	Metal / Brass
Flame temperature:	Up to 1300 °C
For use with:	MAP-PLUS / Propane gas
Power source type:	Corded-electric

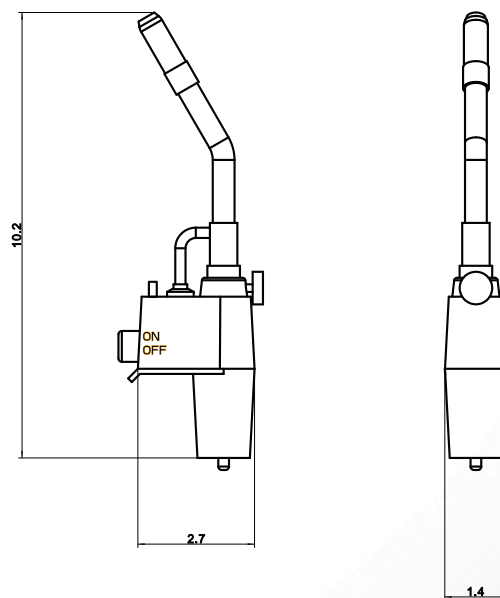

Applications »

Self lighting torch, instant on/off trigger increases fuel savings & convenience, lock button keeps torch lit for finger-free use, replaceable brass tip, burn tip produces swirl flame for maximum heat output, pressure regulated to burn in all directions, cast aluminum construction provides added durability, for use with propane & map-pro fuel. Easy and simple use kit.

- Copper/ Brass Tubes Welding/ Brazing/ Soldering
- Copper/Brass Fittings Welding/Brazing
- Jewelry Process
- HVAC Brazing

Features

- Stainless steel burn tube, cast aluminum body, brass burn tip.
- Pressure regulated with adjustable flame control valve.
- Pull trigger to light the torch.
- Safety Trigger lock holds flame for extended periods. Pressure regulation allows the flame to burn in any direction and ensures consistent performance.
- Easy grip handle made of high impact plastic for high lasting durability..
